1. What is your connection or interest in this case? \* For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

I am a Dominion Energy Customer because they bought SCE&G.

2. Please give a concise statement of your protest. \* (This section must be completed. Attach additional information if necessary.)

As an owner of Solar panels that were approved 3 years ago, I am opposed to the Net Metering Program proposed by Dominion Energy. I decided that living in an area with so much sun, I needed to put money into the cleaner solar power available. I have paid off my panels this past week and was looking forward to saving money on my electric bills without the worry of payments to the solar company. I do not think it is fair for the company to attach costs to solar energy that they are already getting money for. I make electric power that I sell to them and it comes back to me at a higher cost. I have also been paying each month a service charge for them to send me a bill. Why should I pay more for this? I researched and decided that solar power was something I could do here under the Energy Freedom act, which was promoting it. I was told there would be a limit on how many homes in an area could have solar power and so went ahead to make sure I could get it. I am trying to help myself with energy costs.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony?

If needed.
